## Artist Statement

I use photography and film as tools to tell human stories—stories that are often overlooked. My work focuses on women’s rights, personal freedom, and identity, rooted in my lived experience as an Iranian woman. Through honest visual narratives, I aim to spark dialogue and give visibility to silenced voices.

---

## Professional Profile

Sareh Oveysi is an Iranian visual artist, photographer, art director, and filmmaker based in Germany. Her practice bridges visual storytelling with social engagement, addressing cultural, political, and human-rights-related themes. Her work spans documentary film, photography,

exhibitions, and collaborative media projects with cultural institutions, NGOs, and community-based organizations.

She is currently working through **Coconat** as a **Medienproduzentin & Communication Specialist**, enabling transparent and flexible collaboration with cultural and civil-society organizations.

---
